

Longwood Athletics

Where Athletes are *RICH IN PRIDE, SPIRIT, & HEART*

The Lions Roar heard throughout 2010/11!

The Longwood Lion Athletic Program continues to excel. The number of student athletes in the program continues to grow and the level of competitiveness throughout the program is outstanding. Most of our varsity level teams again qualified for post-season competition. Longwood won a number of League Championships and County Championships. In addition, we had a number of teams throughout the program win the Section XI Sportsmanship Award and win the NYSPHSAA Scholar Athlete Team Award.

The Longwood Athletic Program's success is a reflection of the type of student-athlete, the type of coaches, the amount of

parental support that the programs have and the type of support that is received from our Board of Education, the Central Office Administration and the Community. This past year Longwood athletes competed in over 1,000 athletic events. Half of those events were hosted by Longwood. The athletic program would like to thank the athletic supervisors, the security staff, the custodial staff, the grounds staff, the maintenance staff, and the clerical staff for all that they do in support of the program. In addition, we would like to thank the transportation department for all their hard work. The athletic program had

over 500 road events and daily shuttles that were run successfully all year long.

July 2011
